

## Table of Contents

|  |     |
|--|-----|
| 1. Factors influencing parents' choice of school bus transportation for their children in Hanoi<br><i>Vu Thi Huong, Thach Minh Quan, Nguyen Thanh Chuong</i>   | 1   |
| 2. Capturing Micro-Amplitude Structural Vibrations with Low-Cost Cameras: A Non-Contact Measurement Approach<br><i>Le Xuan Luu, Luong Xuan Binh, Ha Van Quan, Ta Thi Hien</i>  | 16  |
| 3. Low-power cordic multiplier design using approximate arithmetic for energy-efficient computing<br><i>Thanh Dat Nguyen, Van Vu Luyen, Quang Thai Pham, Duy Anh Nguyen, Khanh N. Dang, Nguyen Khanh Linh, Dao Thanh Toan</i>            | 30  |
| 4. Evaluation of dowel bar diameter and spacing effects on the stress and deflection of airfield rigid pavements using the finite element method<br><i>Tien Dung Vo, V. V. Tatarinov, Van Hieu Nguyen, Van Thuy Do, Hong Minh Nguyen</i> | 43  |
| 5. Determinants to blockchain technology adoption: a survey in Vietnam construction enterprises<br><i>Nguyen Viet Hung</i>   | 58  |
| 6. Nonlinear buckling and postbuckling analysis of FG-GRMMC cylindrical panels with oblique and orthogonal stiffeners in thermal environment<br><i>Dang Thuy Dong, Dao Huy Bich, Pham Nhu Nam, Pham Thanh Hieu, Nguyen Thi Phuong</i>    | 70  |
| 7. Study on dynamic load factor for narrow gauge railways. application on Vietnam's north – south line<br><i>Tran Anh Dung, Mai Van Tham, Pham Dinh Dao</i>  | 85  |
| 8. Numerical analysis and comparison of dowel load transfer models in jointed plain concrete pavements using the finite element method<br><i>Hoang Khac Tuan, Pham Ngoc Thach</i>  | 100 |
| 9. Elevation-based bias correction of chirps and GSMAP rainfall in northwest vietnam (2000–2024): application to climate-resilient transport infrastructure management<br><i>Doan Thi Noi, Nguyen Hoang Son, Tran Thu Phuong</i>         | 112 |
| 10. Self-supervised deep learning for gnss time series imputation: a comparative study of neural network architectures<br><i>Le Khanh Giang, Tran Duc Cong, Ho Thi Lan Huong</i>   | 127 |
| 11. Full-scale experimental assessment of concrete-filled steel pipe piles subjected to special lateral loads in MSPPP structures<br><i>Nguyen Thi Tuyet Trinh, Dao Duy Lam</i>  | 142 |
