

Table of Contents

1. Analysis effects of oil viscosity and temperature on orbit of ring gear in internal gear motor and pump	153
<i>Pham Trong Hoa</i>	
2. A new variant of radial visualization for supervised visualization of high dimensional data	162
<i>Tran Van Long, Nguyen Dinh Thi</i>	
3. Optimization of milling process parameters for energy saving and surface roughness	173
<i>Quoc-Hoang Pham, Xuan-Phuong Dang, Tat-Khoa Doan, Xuan-Hung Le, Lan-Huong Luong Thi, Trung-Thanh Nguyen</i>	
4. A driver drowsiness and distraction warning system based on raspberry Pi 3 Kit	184
<i>Dao Thanh Toan, Thien Linh Vo</i>	
5. Electron trapping mechanism in a multi-level organic fet memory using lithium-ion-encapsulated fullerene as the floating gate	193
<i>Cuong Manh Tran</i>	
6. examining influenced factors of the preparation phase on total construction time delay of build-operate-transfer transport projects in Vietnam	201
<i>Nguyen Hoang-Tung, Pham Diem-Hang</i>	
7. Multiple vehicles detection and tracking for intelligent transport systems using machine learning approaches	214
<i>Ngoc Dung Bui, Dzung Lai Manh, Vu Hieu Tran, Binh T. H. Nguyen</i>	
8. An experimental and simulation study on the wet-dry action to crack cause of pier concrete in a tidal river bridge	225
<i>Ngo Dang Quang, Mai Dinh Loc</i>
