

Table of Contents

1. Fuzzy-based quantification of congestion for traffic control	1
<i>Toan Trinh Dinh</i>	
2. Analysis of impacting factors for soil-cement column combined high strength geogrid	9
<i>Nguyen Thai Linh, Nguyen Duc Manh, Nguyen Hai Ha</i>	
3. Influence of reef flat submergence on infra-gravity wave energy and resonance over the fringing reef	16
<i>Pham Lan Anh</i>	
4. Influence of fly ash and blast furnace slag on characteristics of geopolymer non-autoclaved aerated concrete	25
<i>Tuan Anh Le, Thuy Ninh Nguyen, Quoc Phong Huu Le, Sinh Hoang Le, Khoa Tan Nguyen</i>	
5. Research on the effects of sulfur on characteristics of sulfur bituminous binder (SBB) and hot mix asphalt – sulfur (HMAS)	33
<i>Nguyen Thu Trang, Tran Ngoc Hung, Pham Huy Khang, Bui Xuan Cay, Bui Ngoc Kien</i>	
6. Investigation of saltwater intrusion in thach han river system by mike hydro river package	46
<i>Vuong Tai Chi, Nguyen Khanh Linh, Vu Huong Ngan, Dinh Nhat Quang, Truong Van Anh</i>	
7. Study the working of piles on the slope ground subjected to horizontal loading by numerical simulation method	58
<i>Nguyen Quoc Van, Nguyen Thanh Sang, Trinh Trung Tien, Nguyen Quy Thanh, Nguyen Thanh Nguyen, Le Ngoc Bin, Cedric Sauzeat, Dang Van Tien</i>	
8. The effect of the setback angle on overturning stability of the retaining wall	66
<i>Thi Thu Nga NGUYEN, Van Thuc NGO, Thanh Quang Khai LAM, Thanh Trung NGUYEN</i>	
9. The effect of vietnam’s nano-silica on mechanical properties of high-performance concrete	76
<i>Le Hong Lam, Dao Duy Lam, Pham Duy Huu</i>	
10. Static loading tests on small-scale pile groups	84
<i>Bach Vu Hoang Lan</i>	
11. Identification and analysis of shoreline changes over fishermen settlement along the coast of sungaibuntu and cemarajaya village, Karawang Regency, West Java	95
<i>A. Ikhsani, P. Sudjono, M. Firdayati, M. Marselina</i>	
12. Establishment the program and mathematical diagrams of embankment stability analysis on soft soil reinforced by soil cement columns	107
<i>Nguyen Thi Ngoc Yen, Tran Trung Viet, Nguyen Hoang Giang</i>	
13. Design, construction and analysis for super-wide, deep and large foundation pit	117
<i>Shenjie Shi, Angran Tian, Yongsheng Zheng, Peng Yin, Weilin Qi, Qiang Tang</i>	
14. A state-of-the art review of tensile behavior of the textile-reinforced concrete composite	127
<i>Tran Manh Tien, Do Ngoc Tu, Vu Xuan Hong</i>
